

Internationaler Bund (IB)

The IB with all their associations and participants, is one of Germany's largest registered non-profit, charity organizations devoted to education and vocational training as well as youth and social work.

12.000 employees work in approximately 700 facilities and branch offices and are present in over 300 different cities and towns. Over 350.000 children, teenagers and young adults are assisted with both their personal and career planning each year.

IB Baden

The IB Baden, as a part of the Internationaler Bund, is a modern service provider in the fields of career education and training, further education and training, qualification and social work.

The IB Baden implemented over 30 facilities for more than 7.000 people.

The IB Baden works closely with management- and service companies, with communities and countries as well as the Job Agency together.

We are a member of the European foundation for quality management.

Büro für Integration

We improve educational opportunities

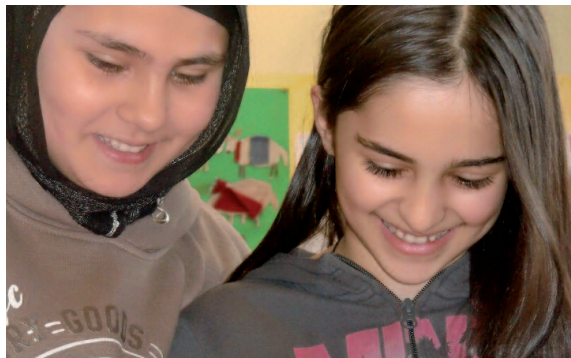

The Youth Immigration Service (JMD) of the Internationaler Bund in Karlsruhe accompanies and supervises the integration of young immigrants. We work closely with schools and other institutions.

The Education Consultation Service provides advice for young immigrants and their parents with the aim to raise the educational chances students, through:

- » Individual consultation
- » Help with German language and targeted parental involvement

How successful immigrants are in school depends on their parents' involvement and their knowledge about opportunities for support.

The students and parents will become more familiar with the German education system and its requirements. The consultation will guide and strengthen parental influence, and will help parents to promote learning in their children.

Family counselling makes your children Strong

In cooperation with schools, we provide courses for parents around the topics school, education and upbringing.

Together, we will visit the children's and youth library and the museum.

As parents you can everytime introduce topics and clarify your questions, for example:

- » How does the school system work in Baden-Württemberg?
- » How can I support my child in learning German?
- » How can I support my child with his homeworks?
- » What recreational activities are available in Karlsruhe?
- » What makes children stronger? How does upbringing influence children?

We organise interpreter in the desired language as well as children care. The courses take place every two weeks, in the afternoon or according to the parents needs.

The parents' courses occur in cooperation with the Karlsruhe Children's Office and will be financed from the federal program STÄRKE.

By us you will receive Educational Advice

Please, feel free to ask us any questions about school. The advice for you is free of charge.

We speak different languages like German, Russian, Romanian, Polish, English, Italian and can find an interpreter for other languages – if needed – for discussions with parents.

- » We organise german support for children in primary school.
- » We provide individualized counseling regarding your child's career in school and his or her educational options.
- » We accompany you for example to parent-teacher conference in the school.
- » We inform you about school and the educational system in Baden-Württemberg.
- » We organise parents' courses about school, education and upbringing.
